Education

•R V Institute of Technology and Management *Expected 2027*
Bachelor of Engineering and Computer Science and Engineering CGPA/Percentage: 8.28

•St. John's Science P U College, Davangere *2023*
Pre-University Education (PUC) in Science, Karnataka CGPA: 90.67

•Gurudeva English Medium High School,Kotturu *2021*
Karnataka School Examination and Assessment Board, Karnataka Percentage: 96.8

Personal Projects

•Blogify – Full Stack Blogging Platform *2025*
Developed a MERN stack web application with authentication and RESTful APIs for dynamic blog management.

- Tools & technologies used: React.js, Node.js, Express.js, MongoDB, JWT
- Implemented secure user authentication (login/signup) with protected routes and token-based authorization.
- Designed RESTful APIs to support full CRUD operations for blog posts and user data.

•Twitter API Project *2025*
Built a RESTful API using Node.js, Express.js, and MongoDB with EJS templating for dynamic tweet management.

- Tools & technologies used: Node.js, Express.js, EJS, MongoDB
- Built endpoints for creating, editing, and deleting tweets, enabling smooth backend communication and database operations.

•SmartEdu – Learning Platform *2025*
Full-stack MERN application integrated with machine learning for personalized quiz generation and performance analysis.

- Tools & technologies used: React.js, Node.js, Express.js, MongoDB, Python, Scikit-Learn
- Implemented api based quiz generation, performance prediction, and weak subject analysis using trained ML models; designed RESTful APIs and responsive UI for seamless user experience.

Technical Skills and Interests

Languages:Python,C Java
Developer Tools:VS Code, PyCharm, Hoppscotch, Git, GitHub
Frontend: HTML, CSS, JavaScript, React
Backend:Node, Express, RESTful API
Frameworks:React, Express
Databases:MongoDB, MySQL
Soft Skills:Communication, Teamwork, Adaptability
Coursework:Operating Systems, DBMS, OOPs, Data Structures, Computer Networks
Areas of Interest:Web Development, APIs

Achievements

•Certified in Operating Systems : Successfully completed a certification course in OS concepts. *2024*

•Certified in Python : Earned a certification in proficiency in Python programming. *2024*
